

Access Control Incident Report

Note(s)	Issue(s)	Recommendation(s)
• The incident occurred on 10/03/2023. • User: Robert Taylor Jr. (Department: Legal/Administrator). • Device: Up2-NoGud. • IP Address: 152.207.255.255.	• Access to financial/payroll systems was gained with administrator privileges. • The account belonged to a contractor whose contract ended on 12/27/2019, but the account was never deactivated.	• Implement a strict offboarding procedure to immediately revoke access upon termination or contract end. • Apply the Principle of Least Privilege (PoLP): contractors should not hold administrator rights. • Configure automatic expiration for user accounts (e.g., after 30 days). • Enable Multi-Factor Authentication (MFA) for access to critical business systems.
